

OPTIONS TRADING COMPETITION

Rules and Competition Format

Key Dates

Start of Competition
April 1

End of Competition
June 30

This competition is designed to introduce students to how real traders use income options strategies in a simulated market environment.

Participants cannot trade stocks directly; they can only sell puts, and if assigned, they can sell covered calls following the Wheel strategy.

Description

Participants will trade exclusively using options rather than direct equity purchases, specifically utilizing the Wheel Strategy. This is an income-generating approach consisting of three distinct phases:

- 1) Cash-Secured Put:** Sell a put option on a stock or another asset you are willing to own. You collect a premium. Because no leverage is allowed, you must maintain enough cash in your account to buy the shares if assigned.
 - 2) Assignment:** If the stock price falls below your strike price and the put is exercised, you will receive 100 shares per contract. You now own the stock at your chosen strike price.
 - 3) Covered Call:** Sell a call option against your newly acquired shares to collect additional premium. If the stock price rises and the shares are "called away," you sell them at the strike price and restart the wheel.
-

Rules

General rules:

- Platform: Interactive Brokers (IBKR) Simulation. Use the specific registration link provided by us to ensure your account is tracked. Immediately after registration, you must fill out the provided sheet with your Account ID number and Login Username
 - Starting Capital: \$1,000,000 USD (Paper Trading).
 - No Leverage: All positions must be 100% cash-backed. Margin trading is strictly prohibited.
-

Rules

Trading restrictions:

To keep your account safe and professional, you must follow these rules. Breaking them may lead to disqualification.

- No Double Entries: You cannot run multiple "Wheels" on the same ticker. You must close or complete one cycle before re-entering that stock.
 - Wheel Steps Only: Participants are restricted strictly to the Cash-secured Put--Assignment--Covered Call sequence. Spreads or other complex strategies are not allowed.
-

Evaluation Metrics

Winners are determined by the primary metric that balances high returns with disciplined risk management:

- **Highest Net Profit:** Awarded to the participant with the largest total gain.
 - **Final Deadline:** All positions must be closed by market close on June 30th to be eligible for prizes.
-

Prizes

1,000,000 KZT

600,000 KZT

400,000 KZT
